Teledom Savez Srbije (Teledom Association Serbia) and Fondacija Mreže preduzetničkog znanja "Nojman Janoš" (Entrepreneur Knowledge Net Fund) In cooperation with 5<sup>th</sup> International competition "Janoš Nojman" –In search for talents through making program products from Szekszard – Hungary organizes

2.

„NOJMAN COMPETITION”

**In search for talents through making program products**

**for which it announces**

**CONTEST INVITATION**

**for participating in competition for elementary and secondary schools pupils**

Competitors should send their application works within the following competitive categories:

1. **Educational programs**, which are suitable for learning general and professional subjects, alone/without consultations.
2. **Computer programs**, which show wide usage of computers. This category includes also program of software technology (on the level of operating systems).
3. **Programs for games**, this category will accept programs for games, which are made on the basis of participants own ideas. Selection panel will also accept game programs or their parts which are further developed by the contestants, although the ideas were taken over from other authors.

To us, people from the country, basis for prosperity should be our knowledge!  
Assumption for acquiring that knowledge is being informed and lifelong training!

## OUR TELEDOMS EMPLOYED IN MAKING EQUAL OPPORTUNITIES

Acceptable are also the game programs which are made on the basis of other, existing game programs, but that are significantly developed and modified. In these cases, the contestants should note the sources of the ideas, and the names of the existing programs.

4. **Constructed digital (automatic) gadgets (hardware) and its control program (software).**
5. **Computer artistic programs. This category includes three kinds of programs:**
  - **Computer graphics**, every contestant can send up **5 application works**,
  - **Computer animations**, every contestant can send up **3 application works**, none longer than **3 minutes**,
  - **Computer music** (compositions, sound materials), every contestant can send up **2 application works**, none longer than **5 minutes**,
6. **Computer supported projecting**

We expect project drawings, visual projects and technical animations constructed using different CAD programs.

Selection panel will accept **programs which are written for “PC personal Computers”**

**Evaluation of the competitive works** will primarily consider accurateness of the programs of all works, when the computer programs are concerned, the easiness to the final users and with multimedia and Internet programs besides the content, also the esthetics of the appearance- the visual aspect.
